SIR H. MONTAGUE ALLAN IN TOWN

Sir H. Montague Allan, president of the Merchants Bank of Canada, Vice-President R. M. Blackwell, and T. Long, one of the directors of the Bank, paid Red Deer a flying visit on Monday last.

The party just returned from a visit to the leading cities of the coast and, after visiting Nelson and enjoying the mountain scenery of the main line of the C.P.R., they came north, and will visit Edmonton and return via G.T.P. to the east.

To a News reporter Sir Montague stated he had enjoyed his trip west, and was greatly impressed with the rapid development of Alberta since his last visit, four years ago. He expressed the view that we have a great future and it is hard to keep track of our rapid growth.

He was struck with Red Deer's beauty as a residential town, and pleased at our apparent growth, and prophesied that we were destined to be one of the principal cities of this fair province at no distant date.

Sheep Twice as High in Alberta

William Daley, of the William Daley Company, of Rawlins, Wyoming, was in town last week, the guest of A. Wyllie, and spoke of the prices of cattle and sheep.

Mr. Daley is a big sheep rancher, and he says, that he only gets 31 cents per pound, live weight, for choice mutton on the Chicago market. He found that farmers were getting 6 cents per pound in Red Deer, nearly one hundred per cent. more than they were getting down in the States, and the quality wasn't anything to write home to mother about.

He spoke of the price of cattle. He said prime steers brought a little more on the Chicago market than Alberta good range steers did, but there were no prime steers here in the meaning of the word. Range steers here of good quality brought just as good a price as the same quality of steers on the Chicago market, and milk cows brought \$20 more per head here in the Red Deer district than they could be purchased for on the Chicago market.

He couldn't see why we wanted a market for our pork, because three-fourths of our pork was brought in from the United States now, and it was softer and more diseased than the Canadian side. The price paid for pork in Alberta was higher than in the United States, and horses here were considerably higher than there. He thought if a few of the political agitators, who have the farmers by the ears in the different organizations, were transported to Siberia it would be a good thing for Alberta.

Edmonton Exhibition

Great preparations have been made for this year's exhibition, to be held in Edmonton, August 12th to 17th. The directors have created a new manufacturers' building and a new machinery hall, and are adding extra space to the grounds for the accommodation of exhibitors of farm machinery. \$20,000.00 has been added to the prize list for this year, making a total of \$45,000.00 in prizes and purses to be completed for. New classes have been made for fine arts photography, women's work and school children's work. The facilities for loading and unloading stock have been greatly improved by extending the present spur line along the eastern side of the grounds, and providing new unloading platforms for horses, sheep and swine. The entries will all be catalogued this year, and for this purpose it is necessary that all entries be received not later than the 20th of July.

There'll be some fast horses at the Central Alberta Fair—Red Deer, August 21, 22, 23.

Interesting Meetings for This Week

In connection with the summer school, which has been transferred from Sylvan Lake to Red Deer, the following specialists will take charge of the meetings. Mr. Thomas, social service; Mr. Myers, religious education; Mr. Percy, missions. The opening meeting will be held in the Methodist Church on Wednesday evening at 8 o'clock. On Thursday and Friday the meetings will be at 9 a.m., 2 p.m. and 8 p.m. The more meetings you attend the greater will be your appreciation.

Cricket

In a one innings game Pine Lake Cricket Club defeated the Red Deer Cricket Club by 44 runs last Monday at Red Deer Exhibition Grounds. The morning was fine and a start was made at 11.30 a.m.

Red Deer going in to bat first, were all disposed of by 12.30 for 55 runs. J. Mann making 23, being top score. Pine Lake had half an hour's batting before lunch fall, during which time they lost one wicket.

Play was resumed by 2.30 p.m., and three wickets had fallen before the rain drove the players to shelter. Soon after four they went out to finish the Pine Lake innings, but with water standing all over the ground it was no longer cricket that they were playing, but rather mud-larks.

However, Pine Lake were all disposed of for 99 runs, giving them the victory by 4 runs.

Sharp and Atter for the visitors and Johns for Red Deer both made 4. Atter and R. B. Heron shared the batting honors for Pine Lake.

LAURENTIA MILK CO. BUSY

Plant in Good Working Order

Last week the newspaper men were notified that the Laurentia Milk Company, of Alberta, Limited, were in operation, and a visit to the firm's splendid up-to-date factory revealed the fact that this growing enterprise was well under way and trying to catch up with the large orders pouring in for the excellent product manufactured by them.

Factories are established at Olds and Bowlin, as well as at Red Deer, and others will be established as soon as possible in different parts of the province.

The market for the product is unlimited. Calgary is now crying out for two carloads a week alone, and the market will cover Alberta as well as British Columbia and other adjoining provinces as soon as possible.

Laurentia milk is an absolutely pure natural milk, having the exquisite taste of cream, and which may be kept indefinitely in perfect condition. The milk is homogenized, which is itself a purely mechanical operation by means of which the cream is mixed with the rest of the milk in such a manner that it can never separate nor be separated again, even by the most powerful separator.

This division of the solid ingredients of the milk into very small particles renders it more digestible and much more easy to assimilate. Being perfectly sterilized, it is free from all noxious germs, and cannot transmit either typhoid or other diseases which are known to be propagated by other milks.

On the incoming of the milk to the factory it is first weighed and then run into a sanitary receiving vat with agitator which prepares the milk for the homogenizer. A steam jacketed pre-heater also assists in this preparation by expanding the volume of the milk and giving better opportunity for the removal of impurities. The milk is then pumped to the pasteurizer, where the bacteria are destroyed by heat. The temperature of the milk is then reduced from 140 degrees to 42 degrees by a 300 h. holding device which it takes half an hour to pass through. The milk is then ready for the homogenizer, which is the cardinal principle and process in the preparing of the milk. By the tremendous pressure of 3200 lbs. to the square inch, the milk is forced against the needles and casings and then passes through the product, instead of having them rise to the top as cream. The cream constituents, in Laurentia milk, are a part of the milk product, and are not separated from it in any way. After the homogenized process the milk is elevated to the series of twelve horizontal coils, through which fresh water or brine is constantly passing, and down over these coils the milk passes to the bottling machines, where it is measured and filled into the bottles and passed to the capping machine, where the hermetically sealed caps are put on. The last process is where the milk in the bottles is heated in the sterilizer under high pressure to a temperature of 220 to 230 degrees, which destroys all the spores from which bacteria develop. The pasteurizing process destroys the bacteria, but it is the sterilizing machine which destroys the spores and which indefinitely prolongs the life of the Laurentia milk product.

The Laurentia milk will come more into general use as its convenience and usefulness become better known. In so many different ways its availability will become evident, so that no household can get along without it in time. The enterprising leaders of Red Deer quickly saw its advantages, and the town's foremost business headquarters located here through their investment. Mr. T. B. Millar, the managing director, has a standing in the dairy industry, having been in the business for many years in Canada, and no able director could be secured—a man, too, who is thoroughly posted on the dairy business in Alberta. Mr. Millar is assisted by Mr. A. T. Bell, the general superintendent, also widely known in the dairy industry; by Mr. Carley, constructing engineer for the Alberta Co.; by Mr. Buffan, the manager of the Red Deer plant; by Mr. Mann, the accountant, and other competent men. Mr. G. W. Greene is President. The Company, besides the Laurentia milk, handle sweet and sour cream, make butter and produce one of the town dairies. They are also making a speciality of ice cream.

July 28, 1912.
The Wheat and the Tares. Matt. xiii:24-30, 36-43.

Golden Text—Gather ye together first the tares and bind them in bundles to burn them, but gather the wheat into my barn. Matt. xiii:30.

1. Verses 24-25—What does the kingdom of heaven here stand for?

2. Would you say, and why, that Jesus here meant that the church as a visible society on earth contains both good and bad people?

3. What is the difference in the results as between good seed and bad seed as suggested in this parable?

4. What in this parable stands for wheat and what for tares?

5. What resemblance is there between the wheat and the tares?

6. If Christ stands for the man who sowed "good seed," whom does the enemy stand for who sowed the tares?

7. What chance would Satan have to sow tares if people kept wide awake?

8. Verse 26—Can "tares," or sin, ever be regarded as another form of good? Give your reasons.

9. Is it possible, or not, and why, for sin to produce good results?

10. Verse 27—Who are those who generally complain to God because

of sin in the church.

11. Verses 28-29—Should a Christian church, or not, and why, expel all those members who are admitted by living sinful lives? (This is one of the questions which may be answered in writing by members of the club.)

12. There used to be frequent trials of members of evangelical churches for immorality. When did you last learn of such a trial and how is it that they are now so infrequent?

13. Verse 30—What will be the difference in that great day between the doom of a sinner in the church and sinner in the world?

14. What will be the fate of the finally impenitent sinner?

15. What will be the final condition of all true Christians?

16. Verses 36-37—Who is the sower of the good seed?

17. In what sense is Christ the only sower of good seed?

18. Verses 38-39—What results do wicked people accomplish in the world?

19. When and what will the harvest be?

20. Verses 40-43—Does Jesus mean that the literal tares are burned in the fires or that sinners will be? Give your reasons.

Lesson for Sunday, Aug. 4, 1912.
The Worth of the Kingdom. Matt. xiii:44-53.

Pulpwood Consumption Increased Twenty Per Cent. in 1911 Over 1910

The quantity of pulpwood manufactured in Canada in 1911 showed an increase of 73,801 cords (or 12.3 per cent) over 1910. In 1911, 672,288 cords were manufactured as compared with 598,487 cords in the previous year. The value of the wood also increased, with the result that the 1911 product brought to its vendors \$4,538,924, as compared with \$3,565,154 for 1910, an increase of \$752,870. The value of the wood (\$6.45 per cord) was greater than it had been for years.

Of the total amount, Quebec consumed in its 28 mills 58 per cent. Ontario used nearly one third of the total consumption; this province has the highest consumption per mill of any, viz., 12,450 cords. New Brunswick mills were hampered by low water during the year. The consumption of pulpwood in these four mills was 45,824, over twice as much as in the depression of the previous year. Nova Scotia, where only mechanical process of pulp-making is used, in its seven mills consumed 22,221 cords of pulpwood. In British Columbia pulpwood manufacture was still in the experimental stage.

Quebec used four species of wood for pulp, namely, spruce, balsam fir or balsam, hemlock and poplar. Ontario and Nova Scotia employed spruce, balsam fir and poplar, while New Brunswick used spruce and balsam fir only.

Borden Takes Tea at Monaster Windsor Garden Party with King and Queen

London, July 18.—The Canadian ministers returned from Biele yesterday evening and were entertained by Lord and Lady Londonderry. A prominent absentee was Mrs. Borden, who has been confined to her room for the past two days by a slight indisposition.

The premier conferred with Winston Churchill on naval affairs yesterday, and, with Hon. J. D. Hazen, will again see him on the 27th.

Ten thousand guests attended the royal garden party at Windsor yesterday, including a large number of Canadians. The event was one of the most notable of its kind which has taken place. Dozens of special trains made the journey from London, and hundreds of motor cars. The premier of Canada received the special honor of taking tea with the King and Queen in the royal tent on the service made of solid gold.

It is learned that the premier, while here, is looking for the release of Dillon, imprisoned for life in Kingston for the attempted dynamiting of the Welland canal. The case is under the advisement of Hon. C. J. Doherty, Canadian minister of justice.

The W.C.T.U.

No Pain After Surgery

In a recent issue of the "Lancet" Dr. F. W. Forbes-Ross, the Harley-street surgeon, describes a new method of preventing shock and pain after an operation by the hypodermic injection of a solution of quinine and urea at the site of the operation wound.

Last month Dr. Forbes-Ross explained that quinine and urea solution does not take the place of the general anesthetic, but should be injected into the tissues to prevent all pain after the patient has recovered consciousness.

The solution has already been used in a large number of operations, and has reduced shock and pain after the operation to a minimum.

Specially valuable results have been obtained with children, who, by their restlessness after recovery from an anesthetic, frequently endanger the success of the operation.

The insensibility to pain lasts from one to six days after one injection. Injections may be repeated as often as necessary, as the solution is non-poisonous and is not a narcotic. The solution does not induce a drug habit.

In the treatment of burns the quinine-urea has given gratifying results. A very severe scald of the hand was rendered quite painless, and the swelling and blistering were immediately reduced by injection of the solution.

Cricket Tour

Edmonton, Alta., July 19.—Edmonton Cricket Club team will start from this city, August 2, on a tour of the province, including the Western Canadian tourney at Calgary, August 6. The team will play at Red Deer, August 3, and at Pine Lake on August 5. Returning from the tournament the cricketers will probably arrange several other games.

The tour will be the most ambitious one ever attempted by the Edmonton Cricket Club and should be a decided success. Later in August the Club has matches scheduled with Manville and Lloydminster. No definite arrangements for the game with the Calgary Club have yet been made. The chief object of the game will be to give the selection committee a line on the provincial team.

The regular meeting of the W.C.T.U. met with Mrs. Harvey on July 19th. Meeting opened with devotional exercises, after which the minutes of last meeting, also executive meeting, were read and approved.

Mrs. German was appointed to fill the office of the late Mrs. Youman's as corresponding secretary; Mrs. Carr was appointed superintendent of flower, fruit and delicacies to fill the office held by Mrs. Wanless; Mrs. Goss was appointed superintendent of the Dain Truss frame; Mrs. Wm. Springbett was appointed superintendent of literature for the depot. Any members of the union having good reading matter, kindly leave same at her home, 2nd Street South.

As it was flower mission day twenty-two bouquets were taken to the hospital by the Misses Hale, Parke and Hall.

There was a goodly number present, and all showed a deep interest in the coming long option campaign.

The meeting closed to meet at the home of Mrs. Graves in August.

BAD STOMACH

Many in Red Deer are Being Thoroughly Purified by Mion, the Guaranteed Cure for Indigestion.

People of Red Deer who suffer from dyspepsia and other stomach trouble are getting tired of taking preparations containing pepsin, because pepsin simply digests the food artificially. Pepsin relieves, it never cures.

And remember, pepsin only digests animal food; it has no effect on starchy food, such as potatoes, rice, bread, etc.

Mion cleanses and purifies the stomach and bowels and puts energy into the stomach walls, so that they properly mix the food with the natural digestive juices of the stomach.

Mion tablets quickly arouse the stomach from its inaction and in a few days it is able to do its work easily and without exertion. There will be no more sour stomach, fermentation of food, dizziness, sick headache, belching of gas, or foul breath.

Mion only costs 50 cents a large box, and is guaranteed by Gaetz, Cornett Drug & Book Co. to cure dyspepsia, sea or car sickness, vomiting of pregnancy, and stomach sickness resulting from over-indulgence of the night before, or money back.

That you can always get what you want when you want it?

F. MICHENER & Co.

IMPORTANT

To the Farmers of Red Deer and adjoining districts

We would call your attention to the merits of the Great Dain Line of hay-making machinery, but first we would impress upon you the fact that these machines cannot be purchased anywhere in Red Deer but from us.

The Dain Vertical Lift Mountain Truss Mower is made in all standard widths of cut. Important points of superiority over other mowers, is, lightness of draft, quality of material, adjustable draft hitch, absence of end thrust on pitman shaft, two outer bar hinge pins instead of four, long wood pitman reducing angle between pitman and knife, and compensating gears. A look over the machine will convince you of its superiority over others.

Dain Power Lift sweeps are adapted for carrying large loads of hay, being quite capable of handling a ton.

The Dain Truss frame is a little cheaper but is equally efficient and is the best rake of similar style on the market.

The Dain Jr., Hay Stacker, mounted, can easily be moved about the field owing to it being equipped with wheels, and the arms can be extended for topping off high stacks. The teeth have spring retainers for holding on the hay while the sweeps are being backed off.

The Dain Improved Automatic stacker can be loaded on a wagon and used in this position in the field. Spare for-bids enumerating all its good points. Again we would remind you that the name "Dain" is a guarantee of the perfection and quality of all goods bearing that name.

DAIN GOODS CAN BE BOUGHT ONLY OF
McCUNE & WATT BROS.
Corner Gaetz Ave. and 1st St. N. - RED DEER

WILL WE HAVE

EARLY ELECTION

Many of the Premier's followers appear to be ardent believers in Bar-num's dictum, "The people love to be humbugged," for they are urging the unwilling Dictator of Alberta to hurry up and spring a general election, so that advantage may be taken of the Liberal victory in Saskatchewan. It will be noted that the Premier's advisors are not concerned about anything so much as about getting back to power and office, and with that as a definite object, they will take advantage of an in-fluence which they know to be temporary. The calm measured judgment of the people these men justly dread, but when a temporary influence favors, they would snap a victory and defeat the will of the people. We may be sure that whether a general election is brought on a present, or at the end of the term it is certain that every effort will be made, not to ascertain the will of the people, but to gain endorsement by following Saskatchewan's corrupt tactics and carefully disfranchising thousands of Conservative voters. The election in Saskatchewan was won before it was fought by this method of preparing a voters' list. This is the kind of thing which the Liberal Government may attempt to put over on the Conservative party before the next general election, or it may be that they will attempt to carry the province up in such a way, under a redistribution bill, as to throw every possible disadvantage in the way of the people's party.

Before very long, however, a general election in Alberta is bound to come, and when it does, it will be the greatest opportunity in Alberta's history to strike out for honest government. The Conservative party stands for honest elections, for every man a vote who is entitled to one, and for the absolute and untram-melled rule of the common people.

UNFAIR VOTERS' LIST.

When a voters' list is prepared by the Government, no man can swear in his vote. If his name is not on the list he simply cannot vote. When lists are prepared by enumerators, as is the case at present, if a man's name is not on the list he can vote by taking the oath. The Liberal Government in Saskatchewan made a list, and by carefully leaving off from fifty to several hundred votes in each constituency, they won. Whether reciprocity is blamed or not, this is the main fact which accounts for the return of the Scott government to office. Under the present system of enumerators lists in Alberta, games of men who are working in construction camps are sworn in, elections are plugged, the way like the Cross election in Edmonton, and these men disappear and cannot be prosecuted. The preparation of lists by a government not given to fair play in its election methods, is very much a matter of heads I win, tails you lose. The Election Act of Alberta is by no means more flagrantly violated than by the agents of the Government. It may confidently be expected that the election process lodged in the case of Edmonton and Chatham will bring some interesting thing to light, unless the Sifton Government covers up the iniquity by calling a general election and so making it impossible to proceed with the protests before the courts, a course which it is rumored they are likely to adopt.

INTERNATIONAL PRESS BIBLE QUESTION CLUB

We commence today the publication of a series of suggestive questions on the International Sunday School Lessons. For some time past these weekly questions have been stirring a great deal of national interest. They have been published in over a thousand newspaper towns and are studied by millions of readers. They are received warmly by the public and enthusiastically endorsed by clergymen of all the churches. Sunday School Superintendents, teachers and adult Bible class scholars use them in every town where they are published, and the general public are much interested.

Contrasting for this unique Bible study question service forms The News and its readers into a local club of one of the classes of the International Press Bible Question Club, and gives the right for all our readers to take up an easy course of reading and compete for some valuable prizes. There are four classes organized each year composed of the newspapers which take up the publication of these questions at four different quarterly periods. The News belongs to one of these classes. There are fifty valuable prizes to be given to our class: 1st, a solid gold medal, 2nd, a solid sterling silver medal, 3rd, a beautiful combination Bible, \$7.50, 4th, a similar Bible, price \$6.50, 5th, a Red Letter Combination At Bible, price \$5.50. 6th to 15th prizes to each a teachers' Bible, price \$4.00 each, 16th to 50th prizes, to each a copy of the notable book, "The Heart of Christianity," price \$1.50 each. If there are five or more contestants from a club one of whom has won a prize as above outlined, there will be in addition a special local prize of a solid silver medal awarded to the one who has the highest marks in the written examinations among the contestants of such club. A diploma, beautifully printed in colors, will be presented to each person who completes the prescribed course whether he wins any other prize or not. The medals are specially designed and engraved and each will be inscribed with the name of the winner. The conditions of the contest are so simple that any person can comply with them. The contest will not commence until the questions have been published thirteen weeks in order to give everybody a chance to become familiar with them. (Cut this out for future reference.)

THE LARGER MARKET FALLACY.

(Calgary Herald.)
"Proceedings were taken against a well known man recently by the United States custom house authorities for smuggling hogs from Franklin county, N.Y., across the Canadian border into Canada, where a higher price was paid for pork than in the United States. His hog was confiscated; his team was confiscated, and in addition a fine was imposed upon him. The driver escaped from the authorities." The New York World, July 11, 1912.

It is astonishing how much evidence can be secured, even in the most cursory manner, to dissipate the absurd idea of the Liberal party in Canada that the United States is the larger market for Canadian produce. Read the above, you Liberals, and then go and hide your heads under a bush.

When discussing the duty on brick a short time ago we showed up the absurd position occupied by the Edmonton Bulletin. For fifteen years the Hon. Frank Oliver and his paper advocated protection on brick. As soon as the Liberals were thrown out of office, they, together with the Bulletin, began the same old cry of free trade. We pointed out that if they had wanted free trade on brick they should have taken off the duty when they were in office. The Bulletin replied that they had tried to take off the duty but couldn't. Could anything be more absurd? Such childishness is not worthy of a paper of the Bulletin's standing.

Between Ourselves

(By Acadia)
Everything looks favorable for a good year on the farm if we get the sunshine to ripen the crop before frost comes. There has been a fine growth in Central Alberta, grass and grain being equal to the best seen in many years.

Some people are unkind enough to say that farmers as a class are grumblers. We do not believe this, but we incline to the view that farmers need to enjoy themselves a little more. A larger share of the pleasures of life would have a good effect upon his spirits and brighten his outlook. The average farmer is a hard worker and has many cares; he needs a little more social sunshine to offset the sombre color of his calling.

Twelve people often forget their obligation to the farmer. We eat his butter and eggs, his fine pork and well fed mutton and beef, and because we pay in solid coin for these things, we forget that both as a customer and as a producer, the farmer is the first man in the national life. A little more of the welcome to our house—spirit, a little more of the glad hand, on the part of the townspeople would serve to bring country and town closer together and to promote a better feeling.

When the townsmen on the farm there is no lack in the welcome—the hospitality is genuine—and the best rooster is none too good.

Michener Hill is going to be one of the features of the town when it is completed. Rain has interfered very much with the work, but two weeks of good weather will give us the nearly as good as the Emperor Hadrian used to build before the days of horse power scrapers and other road building appliances.

Have you tried Laurentia milk? It's great. No fear of its going sour over Sunday. Time will probably mark this process as the greatest development of the centuries in connection with the treatment of milk. We owe much to the condenser, and the evaporator, but the homogenizer is the first man in the race today. Red Deer is the headquarters for Alberta, another landmark for the crown of Central Alberta's Capital. Mr. Homogenizer, we bid you welcome to our city and wish you the full measure of prosperity.

The Red Deer Athletic Carnival on Wednesday last, by no means shamed the town. Everything passed off splendidly to the last rocket and crowds of visitors and citizens enjoyed the day.

There is something in the best forms of sport to enoble and elevate. Charles Kingsley made brave into a distinct religious cult. His idea was a burly Briton who feared God and could walk a thousand miles in a thousand hours; who knelt at his corner doors with texts from the Scriptures and left handers from the shoulder. It is in the Anglo Saxon nature to admire strength and the ability to use it. There are extremes of sport which are dangerous, just as there are extremes of a religious kind which mistake asceticism for righteousness and dyspepsia for godliness. Our athletics, kept within proper bounds, are a reason for national pride, and the Red Deer athletic meet will be remembered as an exhibition of clean square sport to be proud of.

(See that the President and Secretary have, with fine courtesy, expressed their thanks to "one and all." I am sure I may take the liberty to speak for the crowd and say to the President and Secretary, who worked so hard for the meet, "thanks to you.")

Some of the Premier's friends think the present a good time for the provincial government to recalcognize to the home plate. The frankness of the confession is refreshing. If ever the present discredited political aggregation makes another home run, it is pretty certain that they will have to steal it. This truth rises to the top occasionally even with the Premier's followers.

History is a serious inconvenience to the present Government. It is the only thing that the Liberal Government in Canada that the United States is the larger market for Canadian produce. Read the above, you Liberals, and then go and hide your heads under a bush.

Evarts

July 20.
Mr. Coghlin and Miss Hansen were visiting at the Jackson home on Sunday last. We proved a highly amusing incident was the appearance

of a third person who, in his eagerness to get there, got tangled up in the barb fence.
A tennis tournament is being arranged. Ten couples have already entered for the different events.
The hard time dance held in Evarts turned out to be a great success in spite of the bad weather and roads. Some of the costumes were very good. Miss Morgan and Mr. Haslie captured the prize for the best costumes.

Cut in the Cement Duty Has Given Enormous Relief

Imports in June Show Over 200 Per Cent. Increase Over Same Month Last Year.

Ottawa, July 15.—Assertions that the recent temporary cut in the cement duty is affording no relief to the consumers are contradicted by the facts. During June of 1911 the importations of cement over the entire country were not quite 50,000 barrels. In June, 1912, they exceeded 171,000 barrels. The exact figures are—

	June, 1911	June, 1912
Ontario	1,726	12,700
Quebec	2,348	381
New Scotia	4,629	5,922
New Brunswick	3,628	1,500
Manitoba	251	17,903
British Columbia	32,174	70,556
P. E. I.	885	450
Alberta	11	36,801
Saskatchewan	none	24,615
Totals	35,610	171,365

The increase in importations thus has been 115,750 barrels, or 208 per cent. It will be seen that of the 115,000 barrels of increased importations, over 107,000 entered the Western provinces. The increase in Ontario, 11,000 barrels, was not large and in Quebec importations decreased. In the Maritime Provinces the reduction had an effect which is not disclosed in the figures, but which was very useful. These provinces obtain much of their cement from England; the dock strike helped up supplies and the reduction enabled consumers of cement to turn for relief to the United States.

Thus the general effect of the legitimate business of the cement manufacturers has not been impaired, while relief has been given to the Eastern and Western portions of the country, which for varying reasons had been suffering from a shortage.

Western Canada League

TUESDAY'S GAMES.
Red Deer had some hard luck when they lost to Calgary 4-2 in a good game. They got only 5 hits off Harekamp, and they were scattered, except in the ninth, when they did all their scoring. They ought to have scored in the second when Godfrey started the inning with a triple, but the last remains that they did not. Calgary got six hits off Manning, and Flanagan got 4 of these, while Tiger got the other two, and it seemed that every time Flanagan hit Tiger came in. Calgary got one in the first inning and one every alternate inning afterwards. Red Deer made a few more errors than usual. The score by innings—
Red Deer 00000200-2
Calgary 10101010X-4

Bassano won at Edmonton 5-1. The score by innings—
Bassano 10200100-5
Edmonton 000000010-1

WEDNESDAY'S GAMES.
The Deers, with Daniels pitching, took the game from the Deers in the 5-4. Red Deer only got 6 hits to Calgary's 8, but Myers was wild and gave some passes, and hit two men. It was a hard fought game right to the finish, but Red Deer got the big end. Score by innings—
Red Deer 10201010-5
Calgary 20000101-1

Double header at Edmonton. The Eskimos won the afternoon event—
Bassano 02000100-3
Edmonton 21001024X-10
The evening game was a tie, four all.

THURSDAY'S GAMES.
Calgary went right up in the air and made seven errors in Thursday's little game. They hit Dunn pretty freely, but were only able to get 4 runs. Harekamp was rather wild and passed 7 Hurlbuttes, and besides was hit rather freely, and the Deers scored 13 runs. The score by innings—
Red Deer 43010050-13
Calgary 100001002-4

Bassano won at Edmonton seven to three.

FRIDAY'S GAMES.
Red Deer lost on account of Ferd Manning allowing 5 hits in the third inning, which brought in 4 runs, and ended the game, otherwise he pitched good ball. Standbridge kept the Deers' six hits scattered. Score by innings—
Red Deer 000201-3
Calgary 001010X-5

No game at Edmonton on account of rain.

SATURDAY'S GAMES.
No games at Calgary on account of moisture.

Edmonton won both ends of a double-header from Bassano by 10-0 and 10-6.

Alberta Fairs, 1912

CIRCUIT 2.	
August 1-2—Macleod.

Glance Over The Top Edge

Of the turn down collars we have laundered. You'll find the edge is perfectly smooth, is moulded into exact shape and that the fold exactly follows the seam—does not stick up in the back, on one side or on one end.

Our shaper not only folds the collars with a perfectly smooth edge, but it shapes each end just as it is intended to be.

It's worth investigating

Morning Service, 11 o'clock.

Sunday School and Bible Class, 2.30.

Evening Service, 7.30.

All seats free. Hymn books provided.

Strangers cordially welcomed.

Sealed Tenders marked "Tender for Dead Timber Bow River Forest Reserve" will be received at the office of the Dominion Timber Agent, Calgary, Alberta, up to twelve o'clock noon of the third day of August, 1912, for the right to cut under permit the dead timber and such green timber as may be necessary for removal on the following described tract of land: Sections 18 and 19, Township 28, Range 7, West of the Fifth Meridian; said timber having been estimated at 7,250,000 feet, board measure.

Each tender must be on the proper form, and must state the rate per thousand feet board measure which the applicant is prepared to pay for the timber. The upset price is seventy-five cents per thousand feet. Each tender must be accompanied by a certified cheque or bank draft for two hundred and fifty dollars, which will be applied in payment of dues on timber cut by the successful tenderer. The timber must be removed within two years from the date of sale, and at the end of that period the right granted shall cease, and the purchaser will be charged double dues on all merchantable timber then remaining on the ground. The purchaser shall furnish sworn returns quarterly, showing the quantity of timber cut, and shall pay thereon in accordance with the conditions governing the sale.

Further particulars may be obtained from the undersigned, the Dominion Timber Agent, Calgary, or the Supervisor of the Bow River Forest Reserve, Calgary.

Debts collected in Red Deer and Sylvan Lake districts. Collection by personal calls on debtors. Moderate commission charged.

The posting up of professional and tradesmen's books and preparation of monthly accounts undertaken.

Apply THE WOODLANDS, Sylvan Lake, Alberta.

Postponed Dominion Day Celebration

PROVINCIAL ATHLETIC MEET GREATEST IN HISTORY OF PROVINCE

The postponed Provincial meet of the Alberta Amateur Athletic Association, held at the Exhibition grounds in Red Deer, Wednesday last, July 17th, proved to be the most successful gathering of the association ever held in the province, the attendance being between 2000 and 3000, a large number of people being present from the surrounding country. Great interest was taken in the different events by citizens of Red Deer, and they, by their attendance, showed was larger than in either Calgary or Edmonton, showed that as a clean, enthusiastic athletic sporting town Red Deer surpasses anything in the province.

Although there were few entries from Red Deer, those who did enter showed on every occasion. Percy Smith and Fred Land did well in putting the shot, and Ernie Smith came fifth in the hundred yard dash against the best in the province, he only being the smallest fraction of a second behind, but it was enough to defeat him. It may be said that he slightly spoiled his lead a few days before and was not in the best of form. Galbraith made a game fight in the five mile and looked like a winner up to the half mile, but made a splendid start at last. He has the pluck and endurance, and we believe if he takes the trouble and time to train he can beat anything in the province. Harry Allen also ran in the five mile and had lots of luck, but was left three quarters of a mile behind Allen. At the end of four miles it was still a toss-up. When the runners passed the judges' stand entering onto the last lap, Galbraith led by half a length. All the way along the first turn and the back stretch it was a succession of short sprints, first one leading and then the other. On the last turn Dunham started to wear down his opponent, and entered the home stretch with a nice stretch of dry feet. Galbraith led the Red Deer man. He finished easily, winning by about 50 yards. Galbraith, in spite of his lack of preparation, had any practice the boys were delighted and finished fairly fresh.

OFFICERS IN CHARGE.
Referee—H. G. Ballantyne.
Inspectors—P. Pilgion and D. Smith.

Judges at finish—W. J. Stephen, Rev. W. G. Brown, Rev. C. W. G. Moore.

Field judges—E. S. Hogg, W. L. Gibson, H. S. Seymour.

Judge of walking—W. E. Payne.

Timekeepers—H. B. Dawson, S. R. Massey, P. P. Pugh.

Starter—Rev. R. Pearson.

Clerk of course—W. H. Halley.

Score—J. Mann.

Marshal—Rev. Lindsay.

Announcer—A. Forrester.

SUMMARY OF EVENTS.
One hundred yards dash—1 Buddo, Edmonton Y.M.C.A.; 2 Haliburton, Edmonton Y.M.C.A.; 3 Huber, Wetaskiwin. Time 10.25.

440 yards dash—1 Haliburton, Edmonton Y.M.C.A.; 2 Mansfield, E.P.A.A.C.; 3 Hearty, W.C.C. Calgary. Time 55.15.

220 yards dash—1 Haliburton, Edmonton Y.M.C.A.; 2 Mansfield, E.P.A.A.C.; 3 Jardine, Edmonton Y.M.C.A. Time 23.45.

Half-mile run—1 Dunham, Edmonton Y.M.C.A.; 2 Blades, Edmonton Y.M.C.A.; 3 Hayes, E.P.A.A.C. Time 2.11.

One mile run—1 Dunham, Edmonton Y.M.C.A.; 2 Nelson, Edmonton Y.M.C.A.; 3 Hayes, E.P.A.A.C. Time 4.59.35.

Two-mile run—1 Dunham, Edmonton Y.M.C.A.; 2 Brodell, Edmonton Y.M.C.A.; 3 two finished. Time 11 min. 2 sec.

Five-mile run—1 Dunham, Edmonton Y.M.C.A.; 2 Galbraith, Red Deer Y.M. club; 3 Brockell, Edmonton Y.M.C.A. Time 30.30.25.

120 yards hurdle race—1 McIntyre, Calgary Y.M.C.A.; 2 Haliburton, Edmonton Y.M.C.A.; 3 Mansfield, E.P.A.A.C. Time 19.35.

One mile walk—1 Clark, Edmonton Y.M.C.A.; 2 Hayes, E.P.A.A.C.; 3 Brockell, Edmonton Y.M.C.A. Time 8.04.

Running broad jump—1 Buddo, E.P.A.A.C.; 2 Huber, Wetaskiwin; 3 Hayes, E.P.A.A.C. Distance 19 ft. 8 1/2 ins.

Dunning high jump—1 McDermott, Edmonton Y.M.C.A.; 2 Huber, Wetaskiwin; 3 McIntyre, Calgary. Height 5 ft. 4 1/2 ins.

Pole vault—1 Engler, Edmonton Y.M.C.A.; 2 Haliburton, Edmonton Y.M.C.A.; 3 Agar, Edmonton Y.M.C.A. Height 9 ft.

Running hop, step and jump—1 Huber, Wetaskiwin; 2 Buddo, Edmonton Y.M.C.A.; 3 Hayes, E.P.A.A.C. Distance 40 ft. 1 inch. Buddo's best jump was 39 ft. 2 ins.

Putting 16 lb shot—1 Bagley, Edmonton Y.M.C.A.; 2 Smith, Red Deer; 3 Lind, Red Deer. Distance 32 ft. 11 1/2 ins.

Throwing 16 lb hammer—1 Bagley, Edmonton Y.M.C.A.; 2 Reidford, Edmonton Y.M.C.A.; 3 Shute, E.P.A.A.C. Distance 20 ft. 7 1/2 ins.

Throwing the discus—1 Bagley, Edmonton Y.M.C.A.; 2 Reidford, Edmonton Y.M.C.A.; 3 Lind, Red Deer. Distance 84 ft. 2 1/2 ins.

Relay race—Picked team from Edmonton Y.M.C.A. and E.P.A.A.C. defeated Edmonton Y.M.C.A. team, doing the mile in 1.12, eight in 9.5 seconds off the Alberta record. The winning team was composed of

and Mansfield third. Wetaskiwin sent one lone representative, F. Huber, but he did yeoman service. He managed to defeat Buddo in the hop, step and jump, and also carried home a couple of medals for second places. Hayes proved a good point winner for the police, entering in everything from the walk to the hop, step and jump. Blades of the Edmonton Y.M.C.A. ran a classy race in the half, being second to Dunham, while another newcomer, Nelson, also showed staying power and stamina in the events in which he competed.

As stated before, Bagley cleaned up in the weight events, though some of the marks were not very praiseworthy. This is accounted for by the fact that he was in the centre of the inclosure was in rather poor shape and gave an uncertain foot hold.

THE FIVE-MILE RACE.
The five mile race brought out four starters, Dunham and Brockell of the Edmonton Y.M.C.A., Allen of Red Deer, and Fredin Galbraith of Red Deer. The latter, on his past record, was rather fancied to take the race, more so than Dunham had already taken part in three times events. By the time half the route was finished Dunham and Galbraith were running as a team, while Brockell was quite a pace behind, and Allen, who was in the rear, though he pluckily kept plugging along. When seven laps had been completed the leaders headed Allen. At the end of four miles it was still a toss-up. When the runners passed the judges' stand entering onto the last lap, Galbraith led by half a length. All the way along the first turn and the back stretch it was a succession of short sprints, first one leading and then the other. On the last turn Dunham started to wear down his opponent, and entered the home stretch with a nice stretch of dry feet. Galbraith led the Red Deer man. He finished easily, winning by about 50 yards. Galbraith, in spite of his lack of preparation, had any practice the boys were delighted and finished fairly fresh.

BASEBALL.
In the baseball game in the evening at the regular grounds Red Deer had Lacombe hopelessly outclassed, and the result was never for a moment in doubt after the first inning or so. P. Smith and R. Huestis made an effective battery for the locals. Percy held his opponent's hitless for the first four innings and only allowed two or three hits during the entire game. Lacombe got their only run in the seventh on a little bit dropped over the infield and an error on LaFrance. Red Deer started right in and clinched the game in the first two innings, getting eight runs, five hits and two errors. Constable Miller's bender was rather a joke to them, and the visiting infield were rather shaky. After the first two innings the locals took it easy for a while and then added a few more towards the end of the game. There was no heavy hitting on either side, but most of the locals got one or more binges. J. Hanley refereed. The local team were: P. Smith, P. Huestis, E. Pearson, B. Mann, B. Hanley, B. LaFrance, J. Marble, R. Bonnick, C. Smith Jr.

Score by innings—
Lacombe 000000100—1
Red Deer 35001215—13

The local horse racing is always an interesting event. The results were:

Half mile—Harness: "Texas Fred" (A. McPherson) 1; "King" (A. McPherson) 2; "Money Musk, Jr." (V. E. Houde) 3; "Alvino" 4. 4. Time 1:10. 1.30.

Pony race—"Dutchman" (F. J. Boyce) 1; "Nellie" (G. M. Willan) 2; "Robin" (J. Wood) 3; "Babe" (K. Brown) 4; "Joe" (E. J. Johanson) 5. 5. Time 22. 56.

Half mile running—"Billy D." (D. Penlidon) 1; "Nellie" (G. M. Willan) 2; "Joe" (E. J. Johanson) 3; "Flasey" 4. 4. Time 56. 56.

One of the most interesting features of the day was the motor cycle race, which went to Carruthers, Edmonton; Edwards, Red Deer, second, and McLarty third. Moss was leading for second place when his engine stopped.

Buddo, Mansfield, Agar and Haliburton.

Tug of war—E.P.A.A.C. quartette, composed of Sergeant Haig (anchorman), Sergeant Shute and Constables Langman and Green, won from Red Deer in two straight pulls.

Tossing the caber—Bagley, Edmonton Y.M.C.A.; 2 Smith, Red Deer; 3 Reidford, Edmonton Y.M.C.A.

Individual championship—John Bagley, Edmonton Y.M.C.A., with five firsts or 25 points; Buddo of the Edmonton Y.M.C.A. was second with four firsts or 20 points; and Haliburton of the Edmonton Y.M.C.A. third with 10 points.

The football game in the afternoon between A and B teams, for the watch fobs put up on Dominion Day, was very close and exciting. The fobs properly belonged to B team, as they drew the bye when playing Hillhurst on July 1st, but they were willing to play a game with A team and let the winners take the medals. B team scored first, P. Kent and J. Wright doing the business, and there were no more scores during the first half.

In the second half, however, A team scored, and the game was a tie at time. In ten minutes after each way A team scored again, and B team were unable to find the goal though they made several attempts and so A team won the game. The game was interesting to watch, though it was not exactly a first-class exhibition. Wright refereed.

Live Frog in Woman's Stomach
Washington, July 10.—A live frog that crawled and clawed and croaked, lived for nearly a year in the stomach of Mrs. L. V. King, of Deauville.

After reducing the woman to a living skeleton, the frog was finally extricated by the physicians of the Emergency Hospital with a large pump. It is now preserved in alcohol. It measured seven inches.

As a tadpole it was swallowed by Mrs. King in well water last August. Weeks passed before she realized that there was some living creature in her stomach.

Last spring the frog began to climb into her throat, and nearly suffocated her, and several times she fainted with pain. Two months ago the frog began to croak.

VIGOROL
The Great French Tonic

Builds Up a Run-down System—Men and Women (old and young) who are Weak and Unhealthy. Getz Cornett Drug & Book Co. Have It and Guarantee Every Bottle.

VIGOROL is the latest invention. A new lease of life is guaranteed to every man and woman who takes VIGOROL. The reaction is immediate; every impurity will be removed, the blood made pure, the nerves made strong, and every organ will be placed in a healthy condition. Rheumatism will be entirely driven out of the system; that tired feeling removed; new ambition and energy will be yours. You will be able to compete with the world. Get a bottle of the wonderful tonic today. VIGOROL will remove that pain in the back and give you a healthy appetite. Price \$1.00 a bottle.

Dr. de Van's Female Pills
These reliable pills regulate the female system, and are especially powerful in regulating the monthly periods. Dr. de Van's are sold at all cheap drug stores. Dr. de Van's are sold at The Scotch Drug Co., St. Catharines, Ont.

CENTRAL ALBERTA FAIR, RED DEER AUGUST 21, 22, 23, 1912

THE Red Deer Agricultural Society, as re-organized, this year intends to give the people of this district the best Agricultural Fair ever held in Central Alberta.

The Town of Red Deer is increasing the size of the Exhibition Grounds and is putting up \$15,000 in new buildings.

The business men of Red Deer have put up a list of Special Prizes that have never been equalled in this part of the Province. The Directors have arranged and are arranging for a splendid list of attractions in machinery and in amusement features.

It now remains for the people of Red Deer and District, especially the farmers, the farmers' wives, and families, to do their share in making the fair the great success it undoubtedly promises to be.

No agricultural fair can make the showing it should unless it is backed up by the exhibits of nearly all farmers in the district.

The Directors, in addition to the Special Prizes, have put up a generous list of regular prizes, and these should draw out the full competition of this whole district.

There will be some big herds, it is true, but it is none the less true that the great bulk of the prizes will be won by individual exhibitors.

The main reasons why the former Red Deer Exhibition Association had a hard row to hoe where the cost of carrying the grounds and because they were ambitious to put up the largest prize list they could in order to get as large a government share as possible. The present Society have no charge for the maintenance of the grounds—that is being done by the town—and consequently they are putting up the biggest prize list ever offered in Central Alberta.

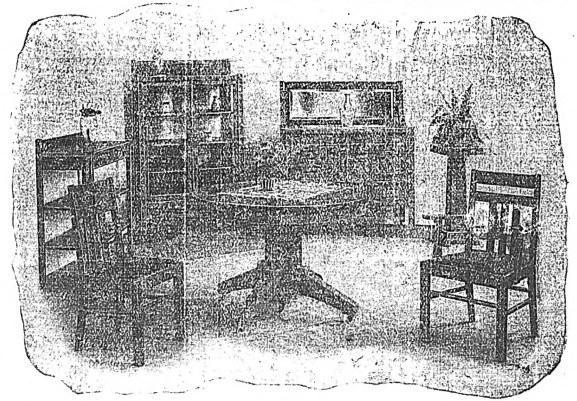

If you cannot possibly make exhibits be sure to attend the fair as a visitor. It will be well worth your while. You will be instructed and amused and will be wonderfully better for a couple of days holiday. Arrange with your friends and neighbors to come. Talk up the fair in your neighborhood.

The railways will give special rates. Make your plans early.

President Lord, Secretary Bjorkeland and the Directors are working hard. The Town is doing its duty and it is up to the country to give them moral and financial support.

Send for a Prize List to the Secretary.

DINING-ROOM FURNITURE

Your Dining-room is one of the most used rooms in your house. Here you entertain your guests.

Why not make this room the envy of your friends, by letting us furnish it with one of our new suites, in either Circassian Walnut, Satin Walnut, Fumed Oak, Early English or Cathedral Oak.

We are showing a splendid assortment of Dressing-room Suits in all the above finishes.

COME IN AND LOOK THEM OVER.

Head of Laurentia Milk Company in Calgary

A. F. McLaren, of Imperial Cheese Fame, Discusses Questions of the Day

"Every branch of business in the East, manufacturing and industrial is working overtime," declared A. F. McLaren, of Toronto, when seen by The Herald in Calgary Monday of last week. Mr. McLaren is the originator of the well-known cream cheese; is president of the Imperial Cheese Co., President of the Laurentia Milk Co., director of the Continental Life Insurance Co., and is also on the directorate of the Alberta Interurban Railway. In company with his wife and son he is making a tour of Western Canada, looking after his various business interests in these provinces.

"It is simply impossible to get deliveries of supplies in either the east or west," continued Mr. McLaren.

MANUFACTURERS OVERWHELMED
"The excessive demand for equipment has simply overwhelmed the manufacturers everywhere. They are working night and day to try and catch up with back orders. In this connection I was sorry to note the feeling that seems to prevail in sections of the west. We were in Regina the day after the elections and there seemed to be an opinion there that the eastern manufacturers have their knife into western consumers."

"This is absolutely erroneous and I cannot too strongly deplore the diffusion of such views. We have nothing but the kindest of feelings toward the western consumer, and would even go so far as to give them the preference, but the fact of the matter is, that it is just as hard to get deliveries in Toronto as it is in Red Deer. The railways are not to blame for it, either. One of the best illustrations of this is apparent right in the city where no substantial progress has been made on the new C.P.R. building in six weeks on account of the lack of steel. The same thing applies in many other cases, and the fact is, that Canada's industrial expansion has been too rapid for her manufacturers."

LAURENTIA MILK CO.
"As I present I am looking over the plans and work of establishing the local plants of the Laurentia Milk Co. We were incorporated in February and since that time have established four plants for the production of milk and cream at Red Deer, Olds, Bowden and Sylvan Lake. We intend to establish these plants at the sources of raw milk supply all over the west as well as the east. Before the fall we expect to have at least five plants in full operation in Alberta alone, and will steadily increase that number. In this we have an educated work to perform, that the eastern planters are not taking up milk farming at least to the extent of raising milk cows. Our purpose is to find the market for milk and cream in production. The farmers don't realize as yet just how profitable the dairy industry is. They seem to give the production of grain their chief attention, but this cannot go on forever. Sometime or other farming in the west must become diversified and the sooner the better."

BIG QUESTION.
"All over the west I have been brought face to face with the question of reciprocity, and it is a big question affecting in a most serious way, as it certainly would have done, the whole of the Dominion. Canada is a vast country and in its boundaries are many and different interests. With this condition of affairs there must be a certain amount of 'give and take' on the part of all the provinces. We must all make some sacrifices and look at things in a big and broad way. The grain situation is acute at present because the present state of railway construction. As it is now Port William and Port Arthur are like the neck of a bottle through which this enormous traffic runs. With the present limited transportation facilities there is bound to be a certain amount of congestion, but this is not a permanent condition of affairs. Next year we will have the G.T.P. and the Canadian Northern to help carry the western traffic, and a little later the Hudson Bay route will be available and will bring us in closer touch with the mother country. If Canada had carried reciprocity it would have amounted to this: That in a comparatively short time we would have had to make a choice between England and the United States. As it is now there is a duty on cheese coming into Canada of three cents a pound, while the duty on cheese going over there is six cents."

WOULD HURT EAST.
"In my case the result was that I had to build a factory in the United States and sell at the same price as in Canada. If I were a western farmer I would rather pay a little more for my implements if necessary and know that our own manufacturers were being patronized. I am sure that Canadians as a whole will not be influenced by little selfish interests in any part of the empire. I don't care where it is. Mr. McLaren spent the day conferring with officials of the Interurban and leaves shortly for British Columbia."

BRITAIN ASKS FOR EQUAL RIGHTS FOR VESSELS

Sir Edward Grey Explains Reason for Panama Canal Protest

London, July 16.—With a view to preventing attempts at premature and provocative discussion of the Panama canal, Joseph King, the Liberal member of parliament from North Somerset, got up in the house of commons this afternoon to ask the secretary of state for foreign affairs, "whether friendly representations are being made to the United States government with the aim of securing generous treatment for such British shipping as shall pass through the Panama canal."

Sir Edward Grey, the secretary of state for foreign affairs, in his merely quoted article 111, paragraph 1, of the Hay-Pauncefote treaty, which reads:

"The canal shall be free and open to the vessels of commerce and of war of all nations observing these rules on terms of entire equality so that there shall be no discrimination in favor of any nation or its citizens or subjects in respect to the conditions or charges of traffic; and no such nation or its citizens or subjects shall be privileged to secure preferential treatment or charges of traffic shall be just and equitable."

Sir Edward added: "As it appeared to His Majesty's government that some of the provisions of the bill now before the United States senate would not be consistent with this article of the treaty, it is thought right to point out these objections to the government of the United States in order that they may be taken into account while the bill is under consideration."

Leslieville

July 17th, 1912.
King and Mitchell, two of Leslieville's enterprising young business men, a few days ago received the first carload of merchandise to be shipped into Leslieville over the new railway. Their business has increased so rapidly during the past year that they find their present quarters far too small.

Card Bros. have recently purchased a new steam plough, the first to be used in this neighborhood, and have begun breaking on the homestead of Mr. C. A. Card. This is a real stride toward "up-to-date-ness," and we wish them much success in their undertaking.
We understand that A. R. Thompson and family contemplate a removal to B.C. this coming fall. Mr. Thompson, together with his son, G. Thompson, and G. Bailey, came to this part of Alberta in May, 1903, and all settled on the section where they now reside. They were the first settlers in the Leslieville district, and were almost the only ones for the first two years. As the country to the west settled up, Mr. Thompson's house became a sort of general stopping place for settlers going and coming, and served as a distributing point for the settlers. The house was built on the site of the post office. The family will be greatly missed by a wide circle of friends and acquaintances.

The recent rains have raised the water in the Horseshoe and other streams to the highest they have been in years. A number of foot bridges have been washed out, and even one of the government bridges is threatened, according to report. The railroad grade has also been much damaged, making the track quite unsafe in many places.

Cowlin's crew is at present engaged in putting in a siding on the east side of the Blüchery Creek. They expect it soon to be finished, when they will remove to the Lobstick and put in one between the bridge and the crossing at Bethel Union.

G. W. Bailey is building a concrete residence, preparatory to erecting a residence on his place, Willow Root Farm.

The Leslieville Literary Society will hold its first annual picnic on Saturday, August 3rd, on the premises of C. A. Card. The members of the Society are invited to bring their friends, and also plenty of eatables, and are looking forward to a real "home-made" picnic, like our fathers and mothers used to go to. There will be no fashionable dress parade, and no cut-and-dried, made-to-order programme. All the pick-nickers are to meet at Bethel Union, and proceed from that point to the picnic ground at one o'clock.

July 18th, 1912
F. E. Good, the genial blacksmith from the Rocky Mountain House town, has made several successful trips with his auto on the C. N. R. steamer.

R. H. McDonald, preacher, was a visitor at Mr. Read's yesterday afternoon.
Quite a number of the young people of this vicinity took a trip to the Rocky Mountain House town on the 12th and report having had a very good time.

Rev. E. G. Heaven is quite well again, and preached on Sunday p.m. Mrs. M. M. Rutherford has gone to Red Deer for medical treatment. Henri Ludwig, from Calgary, is the guest of Leonard Patterson.
Ralph Patterson, who has been working at St. John's Lake for two weeks, returned home on Sunday.
Miss Bertha Reilly is visiting her sister, Mrs. A. M. Martin, at the Rocky Mountain House town.
The C. N. Railway are putting in the station. The trains are making one trip a week.
The Pattersons are building a livery stable on the new townsite.
Wallace McKenzie, the new blacksmith, is doing good work. Give him a trial.

Neat Swindle Nipped in Bud, Claim Police

H. E. McElwain Arrested on Complaint of S. J. Haskell on a False Pretenses Charge.

What is said to be a neat swindle that involved several thousand dollars was nipped in the bud Tuesday, when the city police arrested H. E. McElwain, alias "Halton," alias "Halton S. Ewen," alias "Halton S. Ewen Davin," alias "E. Davin," who is alleged to have floated a supposed automobile company, which was incorporated under the name of the Vulcan Corporation, capitalized for \$50,000,000 in the territory of Arizona, United States, with H. E. McElwain, president. He is now held at the mounted police guardroom at Fort Saskatchewan on at least one charge of false pretenses.

According to the evidence of Sydney J. Haskell, who paid \$50 as a first instalment of 25 shares of stock in the corporation valued at \$250, which was to have built a plant to manufacture automobiles, McElwain gave elaborate details regarding the company, which was to make Motaskivian an industrial centre of more than ordinary importance.

When McElwain was arrested Tuesday night at 70 Clara street by Detectives Seymour and Lang, he was identified, it is alleged, as the man who came to Edmonton some time ago with a big scheme all worked out for the city fathers or whomsoever might take an interest in it. It was none other than the "Great West Coal Company" of Pittsburgh, Pennsylvania, incorporated in the states of New York and Pennsylvania at \$100,000,000, and having on its directorate some of the most prominent capitalists of the United States. McElwain gave several local people to understand that a vein of coal had been located near Vermilion, and 1000 miners as well as a considerable amount of mining machinery would be brought to Edmonton immediately to work the mine. Some of the most experienced coal mine engineers in North America were to be brought here, McElwain said, to operate the mine. McElwain sold stock, it is alleged, in amounts of from \$5 to \$25 to each person.

Then he was arrested, and Magistrate Cowan sentenced him to three months at Fort Saskatchewan. McElwain is also the same man who started a fictitious automobile factory at Toileid last year, and convinced some of the residents of that little city that an industry that surpassed the fondest dreams of the oldest capitalists of the world had been materialized.

McElwain is identically the same man who talked industrial schemes here four years ago, and deluded several unsuspecting people out of amounts ranging from \$2 up to \$25. The Toileid scheme was abandoned, however, and some of the would-be students have been looking for the self-styled teacher. One photograph of McElwain captured the attention of him in a robe, and he greatly resembled Belasco in appearance. He is known to have served several jail terms on charges of fraud.

GRAIN GROWERS WILL LEASE BIG ELEVATORS

Proposition of Manitoba Government Accepted After Discussion—5 Year Term Favored.

Winnipeg, July 18.—The chief event of the meeting of the Grain Growers' company yesterday was the decision to accept the Manitoba government's proposal to lease an elevator system. The question was discussed all afternoon. While the shareholders were overwhelmingly of the opinion that the company should lease the government elevators, there was a difference of view as to detail.

The term of the government is for one year, and there was a general impression that this was too short. George Langley, M.P.P., Saskatchewan, suggested five years, and this was the term that found general favor. The discussion terminated with a resolution instructing the new board of directors to complete negotiations with the Manitoba government on the matter.

Also discussed was the question of leasing two grain elevators at Port William on the C.P.R. On this question there was no difference of opinion, the shareholders being unanimously in favor of acquiring terminals at the head of the lakes. This proposal, however, as well as that of leasing the Manitoba government elevators, was left to the next convention. The new board of directors, nine in number, is as follows: T. A. Crerar, Winnipeg; John Kennedy, Winnipeg; R. McEwen, Winnipeg; George Langley, M.P.P., Maymont, Saskatchewan; J. Fream, Calgary; William Moffat, Souris; F. W. Green, Moose Jaw; J. J. Morrison, Yellow Grass, Saskatchewan. The vote for the directors gave the new board a 5-4 majority. The plan to elect A. A. Partington, Santaaula, on the result being announced, Mr. Partington stated that as he was only seven votes above Mr. Morrison, he had found himself self out of sympathy with the management of the company, he considered it best to tender his resignation. This was accepted.

THE FIRST TIME OFFERED FOR SALE IN THIS COUNTRY.

Machela, Nature's Scalp Tonic, removes dandruff and prevents falling of the hair. Has a record for growing hair—95 cases out of 100. Each package contains a packet of Machela's 177 Shampoo Powder. Price for complete home treatment, \$1.00. Sold and guaranteed by G. B. Parker.

Red Deer Implement Co.

SOWING HIS WILD OATS REAPING A HARVEST OF SORROW

How many young men can look back on their early life and regret their misdeeds. "Sowing their wild oats" in various ways. Excesses, violation of nature's laws, "wine, women and song"—all have their results. You have reformed but what about the seed which is sapping your life? If you are suffering from the results of past indiscretions; if your blood has been tainted from any private disease and you dare not marry; if you are married and live in dread of symptoms breaking out and expiring your past. If you are suffering as the result of a mispent life—DRS. K. & K. ARE YOUR REFUGE. Lay your case before them confidentially and they will tell you honestly if you are curable.

YOU CAN PAY WHEN CURED
We Treat and Cure VARICOSE VEINS, NERVOUS DEBILITY, BLOOD AND URINARY COMPLAINTS, KIDNEY AND BLADDER DISEASES and all Diseases Peculiar to Men.
CONSULTATION FREE. Books Free on Diseases of Men. If unable to call, write for Question Book for HOME TREATMENT.

WHAT ABOUT THAT KODAK?

It is about time that you purchased that CAMERA if you intend to take Pictures this Summer.

You will be sorry if you don't get a Kodak and take some snapshots of the home and children, besides, no outing is complete without a Kodak.

WE HAVE THE GENUINE EASTMAN
"Kodaks, Films, Papers
And Supplies."

The same as you get everywhere at the best stores, and the price of a Kodak is identically the same here as in Toronto, New York, or London.

If you are interested drop in or write for a catalogue, etc.

"Mail Orders Receive Prompt Attention."

THE REXALL STORE
THE Gaetz-Cornett Drug & Book COMPANY

LOCAL AND GENERAL

Keep your eye on Murphy; he sells cheap.
Don't forget to read the new story started this week.

Don't forget Brown & Fulton's \$2.00 hat sale, Saturday, July 27th.
A. G. Ayres conducted both services in St. Luke's Church Sunday last.

Girl wanted at the hospital to help in the kitchen. Apply to the Matron.

See the famous Sutcliffe Troupe of Aerobats at the Red Deer Fair, Aug. 21, 22, 23.

John McDonald, of the Alberta Central office, has been removed to Moose Jaw.

The town editors are attending the Alberta Press Association at Nelson, B.C., this week.

Hon. Charles Cross' election in Edmonton to the Legislature has been protested.

Murphy & Co. feel like selling for cash. They must, in fact; and they are offering bargains.

St. Luke's Sunday School picnic will be held Tuesday, July 30, weather permitting.

The congregation of the Presbyterian Church are talking of enlarging their church building.

\$10 for the best rock of dairy butter at the Central Alberta Fair—Red Deer, Aug. 21, 22, 23.

Miss Maleval, of the public school staff, Winnipeg, is visiting with Mr. and Mrs. John Metcalf for a few weeks.

Two sacks of Robin Hood flour for the largest family attending the Central Alberta Fair—Red Deer, Aug. 21, 22, 23.

E. Michener, M.P.P., was out east looking over the roads on Monday. He will find them in the worst condition for years.

Mrs. H. S. Campbell was brought into town with a broken shoulder blade a few days ago, caused by falling downstairs.

Tennis balls, baseballs, rubber balls, footballs, bats and croquet sets at John McVicar's bookstore. Issued of marriage licenses.

Royal Theatre Special—Pictures of Titanic wreck. Shown Saturday, July 27th, and Monday, July 29th. Don't forget the date.

A severe wind, hail and rain storm passed over the Pine Lake district Sunday. Harry Raikes reported it as the heaviest he has seen in years.

Mrs. W. Lacey Amy, of Toronto, is visiting her brother, W. E. Payne, and Mrs. Payne. Miss Kerby, of Calgary, is also a guest with Mrs. Payne.

George Donomey, of Horn Hill, brought into town a few days ago a large quantity of fine tame strawberries, grown on his farm, for which he realized a good price.

The lawyers of the town have decided to close their offices, Saturday afternoons at one o'clock and other afternoons at five o'clock during the months of July and August.

Miss Day returned from spending her holidays at Banff and Medicine Hat on Monday evening. Miss Cooper returned with her and will be her guest for some time.

Special meeting of Sons of England Lodge tonight at 8.30 p.m. Every brother is earnestly requested to be present, as business of vital importance will come before the meeting.

Ever have any trouble with your lamp-light developing paper? Any friction marks, over exposures, etc.? Then just try "Cyko." Fresh stock just received—Parker's Drug Store.

The Y.M.C.A. boys broke camp at Sylvan Lake on Saturday and returned to Calgary. They say they had a good time, although it was a little too moist for pleasant camping most of the time.

The first Grand Chapter of Order of Eastern Stars was organized at Calgary Saturday last. Messrs. C. P. Pedgroom and Walter Trump, Mrs. Alford and Miss McKinnon attended as delegates from Red Deer.

Edmonton business men paid Red Deer a visit for an hour yesterday afternoon and will be received. But owing to the rain and the brief notice given, there were not as many people turned out to greet them as otherwise would have been the case.

M. Merkleberg, A.M., the celebrated and 25 year experienced eye specialist, of Archibald Block, Edmonton, will again be at the Arlington Hotel, Red Deer, Saturday, August 24. Spectacles, eye glasses and artificial eyes the very best at moderate charges. Absolute satisfaction guaranteed.

The Boy Scouts, under the leadership of Rev. C. W. G. Moore, left for Ponoka on Friday last to be gone all this week. Units of the Scouts from Lacombe, Stettin, Castor, Aliv, Wetaskiwin and other places will assemble there. They have so far had a very wet week of it, and they will have little enjoyment unless it clears up.

Four young ladies started out for Sylvan Lake yesterday. We have not heard of their arrival or return. We hope they reached the lake safely, but if they did they should be engaged as mail carriers, as the mail only went out twice last week, instead of three times, the Wednesday trip having been abandoned. Readers of The News who did not receive their paper until the end of the week have thus made aware of the delay. It is possible that the roads will be impassable if the rain keeps up.

Rain.
Drizzly rain.
Some more rain.
Just common wet rain.
Just see Red Deer West.

Read our new story "The Diamond Cipher" started this week.

The Smith Land Co. have two pretty cottages for sale.

See Murphy & Co's cash grocery sale ad. in another column.

Don't forget Brown & Fulton's \$2.00 hat sale, Saturday, July 27th.

Arrow and W. G. and R. collars, quarter sizes, at Brown & Fulton's.

Professional baseball every day—Central Alberta Fair—Red Deer, August 21, 22, 23.

Walter Leonard, a young man who, after visiting western cities, settled in Red Deer only a short time ago, developed typhoid fever after being in the employ of the Great West Lumber Co. for only one week, died at the Memorial Hospital on Thursday last. He must have contracted the disease on his travels. The young man was a cousin of Mr. Rutherford, of Parker's drug store, and a member of the Independent Order of Oddfellows, the order attending the funeral and showing every respect to the remains of their deceased brother. He leaves several brothers and sisters east in Nova Scotia in mourning his death. The remains were interred in Red Deer Cemetery.

President Taft Asks For Repeal of The Reciprocity Act.

Washington, July 23.—President Taft now favors the repeal of the Canadian reciprocity act. He has written to the senate finance committee a letter stating that in view of the Canadians' failure to accept the policy of closer trade relations the legislation now standing on the American statute books that it might as well be repealed.

At present the United States is in the attitude of making a standing offer to Canada, the benefits of which may be realized at any time the Dominion enters reciprocal concessions.

The finance committee has already favorably reported a separate bill for the repeal of reciprocity introduced by Senator McCumber, of North Dakota. Reciprocity was so unpopular in Mr. McCumber's state that President Taft, as its sponsor ran a poor third in the presidential election.

President Taft aroused much hostility throughout the middle west and northwest by his advocacy of reciprocity. It was about the only Taft policy that the third party candidate endorsed, but he repudiated it as soon as he discovered it was impeding his campaign for delegates against Mr. Taft.

BIRTHS.
At Red Deer, on July 15th, to Mr. and Mrs. M. L. Campbell, a daughter.

At Red Deer, on July 20th, to Mr. and Mrs. H. S. Pearson, a son.

GEO. CAMPBELL,
Penhold, July 24, 2v1.

FOR SALE.
Nearly new Royal Standard typewriter for sale—Box X, News Office. Red Deer, July 24, 2v.

FARM TO RENT, SELL, OR TRADE.
In good district, one mile from lake, store, post office and creamery, one and half miles from school, and on main road. First class buildings, exceptionally good seven roomed house. Telephone in house. Good water. This is a splendid little farm for dairying and stockraising. About 22 acres broken. All hay can be put up this season by tenant or purchaser. \$500 cash will handle if bought at once.—Apply Box X, News Office. Red Deer, July 24, 2v.

Auction Sale of Timber Berth Covering Dominion Lands
The right to cut timber, under license, on No. 1727, comprising the following lands in the Province of Alberta, will be offered for sale at public auction at the upset price of \$6,000.00, including cost of survey, at 2 o'clock P.M., on Wednesday, the 2nd of October, 1912, at the office of the Dominion Timber Agent at Edmonton—

Timber 1, 4th No. 1727, situate in the Province of Alberta, comprising Sections 3, 4, 9, 10, 18, 24, North East quarter of Section 26, Section 27, 28, 32, 33 and 35, in Township 15, also Sections 2, 3, 4, 5, 6, 7, 9, 10, 16, and that part of Section 21, South of Timber Berth No. 1242, in Township 49, all in Range 6, West of the 5th Meridian, containing an area of 21,255 square miles, more or less, divided into 5 blocks, as shown on plan or survey thereof, approved by the Surveyor General, and dated the 15th of February, 1912. Islands which may occur in bodies of water, within this berth, are excluded.

This berth will be cancelled at the expiration of six years from the date upon which it is sold.

A license will not be issued until the full amount of the purchase price, and the ground rental for the first year have been paid.

The conditions of payment, rate of rental, etc., are contained in the Timber Regulations, a copy of which may be secured on application to the undersigned, or to the Crown Timber Agent at Edmonton. A blue print showing the location of the berth will be furnished on application.

P. G. KEYES,
Secretary,
Department of the Interior,
—25845, Ottawa, July 11th, 1912.

SEALED TENDERS, addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings" will be received at this office until 4.00 P.M., on Wednesday, August 28, 1912, for the supply of Coal for the Public Buildings throughout the Dominion.

Commodious specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering decline to enter into a contract when called upon to do so, or fail to complete the contract. If the tender be not accepted the cheque will be returned.

By order,
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, July 17, 1912.

Newspapers will not be paid for this advertisement if they insert it without authority from the Department.—22653.

SPECIAL CASH GROCERY SALE

GRINDSTONES
IT PAYS TO USE GOOD TOOLS but the best is no better than the cheapest when it is dull.

A SHARP SICKLE takes half the work off your horses. In fact sharp tools always make easy work and save time and energy.

OUR GRINDSTONES are easy running, mounted on wood or steel frames, turned by crank or treadle and will put a keen edge on an ax or hatchet, scythe or sickle in a few minutes.

WE ALSO HAVE whetstones, and emerystones, as well as oilstones for mechanics tools.

WE price such goods on a mighty close margin, for we sell good tools and want them to do good work.
